

Highdown School

Actions: We have got a lot of green areas for trees

Who with: Ask headteacher if we can plant some trees

Kendrick School

Actions: Try to reduce school energy consumption and prioritise lighting
- Turn off lights
- Replace old strip lights with LED (over time)

Who with: Speak with the Headteacher. Costs: LEDs are more expensive than strip lights but last longer

Prospect School

Actions: 1 week of no vehicle travel: Use public transport, walk or bike to school to reduce emissions
Plastic free packaging at the canteen
Optional portion size [school lunches]

Who with: Working with the Student Committee to recommend these actions to everybody

Reading School

Actions: Transport: Map to actually see how long the routes to school are
Encourage more bikes and walking
Looking up fermentation bins

Who with: Student lead. Everyone in school.

Reading Girls School

Actions: To discuss with our student leadership team to reduce plastic use in our canteen

Who with: Student leadership team

The Bulmershe School

Actions: More recycling encouraged with paper bins
Less plastic in the canteen

Who with: Students and families and with the Head – ask for different resources (costs: small amounts).

The WREN School

Actions: Cut down on our energy use as currently it is very high
Key Message: We need to try and be more sustainable.

Who with: We will ask our Headteacher to help and we need [energy] auditing technology
We will use posters to let everyone know.
